

Accessing the live Topical Sessions Q&A in Zoom's breakout rooms

Before we start this brief tutorial :

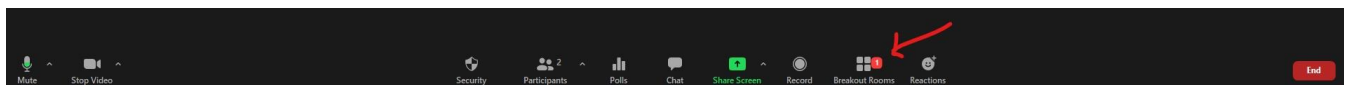

It is IMPERATIVE that the latest version of [Zoom Client for Meetings](#) be downloaded on your computer.

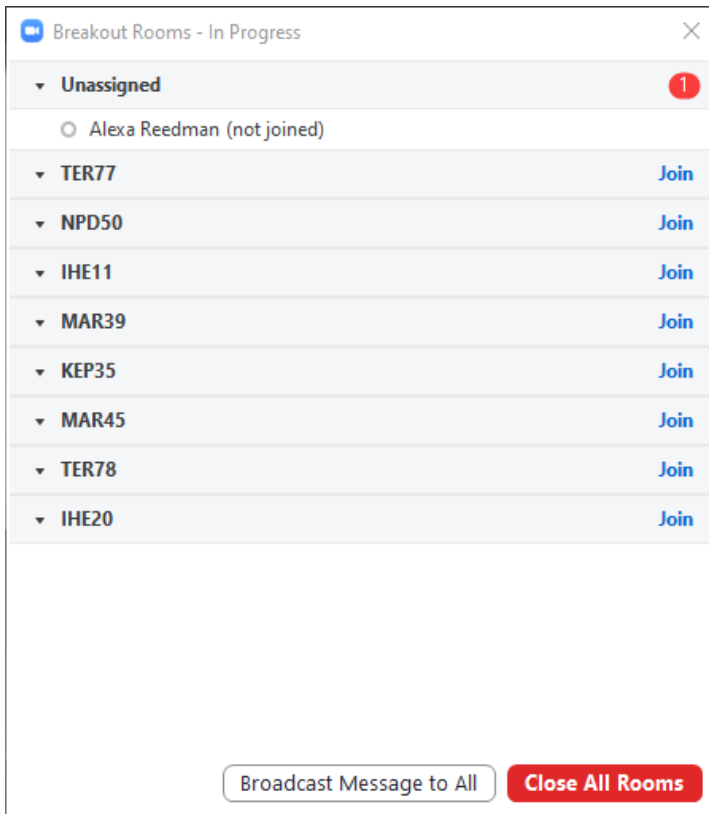

After the videos have concluded for your topical session, click on the Zoom icon at the bottom of the topical session's description page:

Join us on  **zoom** for live Q&A!

Make sure that you have the code for your session noted (ex. TER77).

The Zoom link will bring you to the main Zoom meeting room. When you arrive, your video will be off and audio will be automatically muted. Click on the "Breakout Rooms" button at the bottom of your screen:

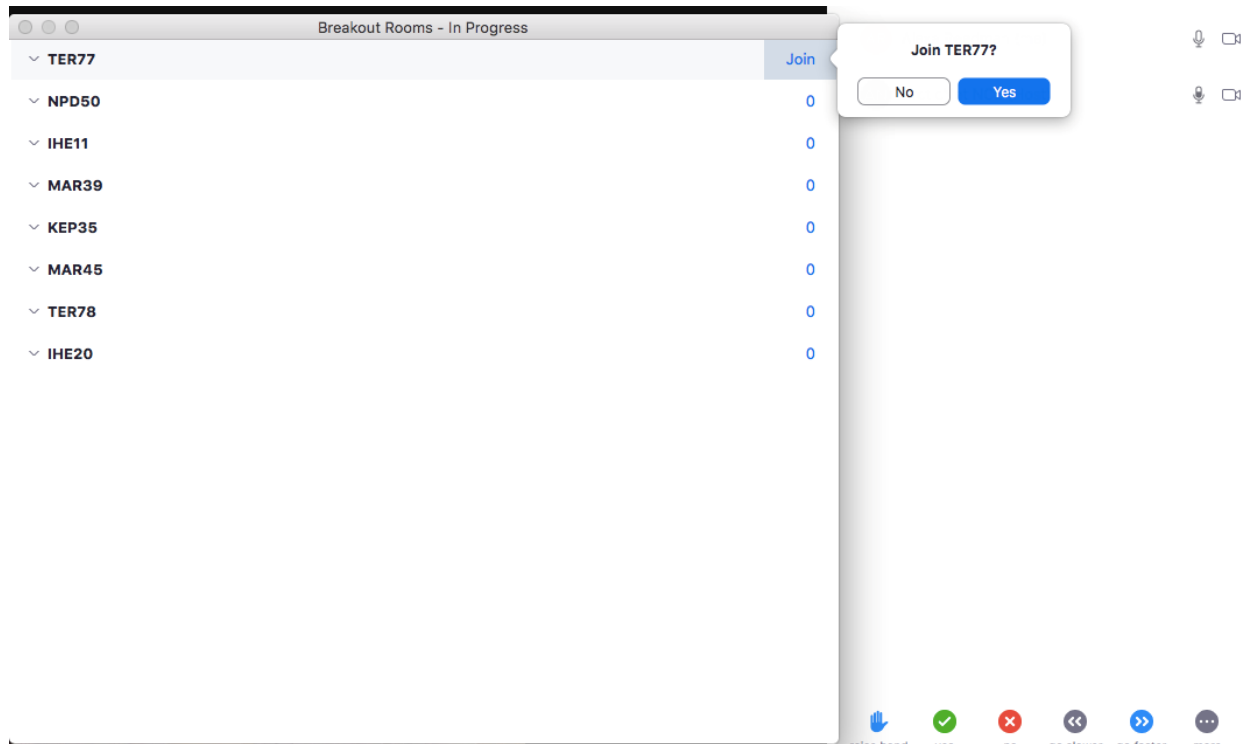

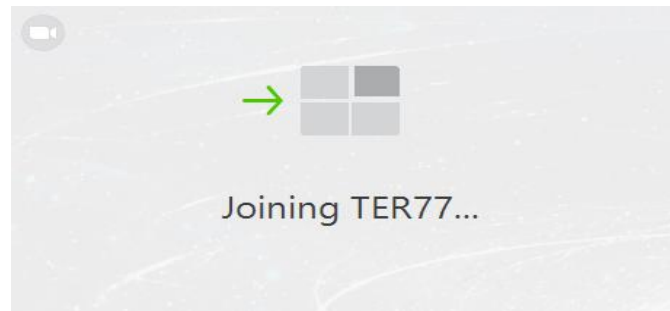

This will show you the list of available breakout rooms.

Breakout Rooms box will appear differently on PC or Mac.

Find the one named with your topical session's code, and hover your mouse over the number of participants listed in that room (to the right). The option to "Join" will appear.

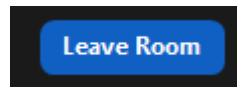

Click on join:

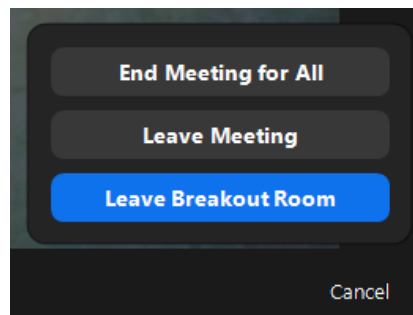

You will be placed into your breakout room (ex. TER77) with the co-chairs from the topical session you were watching, the presenters, and other attendees interested in discussing and asking questions face to face.

If by accident you have chosen the wrong breakout room, click:

At the bottom of your screen, choose:

This will bring you back to the Main Session
